Adaptive Curriculum continues its partnership with the Home School Buyers Co-op

The Homeschool Buyers Co-op continues to offer Adaptive Curriculum and Uzinggo as part of their content offering to its members

SCOTTSDALE, AZ - August 27, 2018- Adaptive Curriculum, a leading math and science technology company announces its continued partnership with The Homeschool Buyers Co-op as the only authorized Homeschool reseller, offering both Adaptive Curriculum Science and Math content and Uzinggo Science and Math content, as part of their instructional options for the homeschool community.

With over 200,000 member families, The Homeschool Buyers Co-op of Fremont, CA is the largest buyer’s club for homeschooling families. Offering proven choices that have been reviewed and approved, The Homeschool Buyers Co-op is excited to have Adaptive Curriculum and Uzinggo as options for the 6-12th grade student in Math and Science. Having two options with the same award winning content addresses both teaching and learning styles—whether teacher driven or student driven, the two management systems allows the homeschool teacher/parent to select what works best for them and their student.

Designed for grades 6-12, Adaptive Curriculum’s Activity Objects engage digital learners by integrating real-world scenarios, cutting-edge graphics, animations and 3D models as well as interactive simulations into active, standards based learning. Unlike textbooks or drill and practices programs, Adaptive Curriculum’s active learning approach motivates learners to explore, make hypotheses, manipulate items and see the impact of their decisions, thus developing and deepening their conceptual understanding.
